

REMARKS

Claims 1-48 are pending in this application. Claim 30 was canceled and claims 1-28 and 35-48 have been withdrawn, leaving claims 29 and 31-34 remaining.

1. Perfection of Claim to Priority

The Office Action requires the submission of a translation of the priority document, Korean Patent No. 99-30638, filed July 27, 1999.

Attached hereto as Exhibit A is a complete translation of the priority document, along with a Verification by the translator, Miyoung Park.

Accordingly, Applicants respectfully request the Examiner to reconsider and acknowledge Applicants' claim to priority of Korean Patent No. 99-30638, filed July 27, 1999.

CONCLUSION

Based upon the above remarks and the Response and Amendment file October 3, 2003, the presently claimed subject matter is believed to be novel and patentably distinguishable over the prior art of record, and entitled to a claim to priority to Korean Patent No. 99-30638, filed July 27, 1999. The Examiner is therefore respectfully requested to reconsider and withdraw the rejections of remaining claims 29-34, to withdraw, at least in part, the restriction requirement, and to allow all pending claims presented herein for reconsideration. Favorable action with an early allowance of the claims pending in this application is earnestly solicited.

The Examiner is welcomed to telephone the undersigned attorney if she has any questions or comments.

Respectfully submitted,
